

# PEILIFE

## Engaging With Youth!

**PEILIFE** was invited to speak to Dr Huizing's Grade 10 class at grace Christian School, Charlottetown. The class has studied the dystopian novel, *Unwind* by Neal Shusterman, which features a society that has solved the prolife/prochoice conflict by offering a solution that targets teenagers instead of the child in the womb.

The presentation was able to show the youth that not all choices are the same and that in fact all LIFE is valuable and deserves to be protected. A world that does not uphold the protection and dignity of the child in the womb, the teenager or the elderly leaves everybody vulnerable.

**PEILIFE** was delighted to engage with our Island youth and thanks the staff at GCS for this opportunity to highlight that all life is valuable and worthy of protection. **Every LIFE matters.**

**PEILIFE's mission is to actively advance and promote that every human deserves the dignity and value of life in all its stages.**
